SPECIAL NOTICE. On and after bodies, and Nieweing leader rolat the Newconstant of Mr. Benj. Talley, Nov. 128 and 1 (2) and street. Price only one cent.

Vewport and her Puture,

We are not of these who believe, or atfice to believe, that the due growth and importraise of our delightful city is going to depend mainly on the coming of one ship or ten ships libber, no matter how ability what point of the compass they may come, If we have not, within ourselves, the clethents, progress, and prosperity—if $m_{\rm d}$ own citizens lack the segacity, the enterprise, the public spirit, and the persevenince requirite to make New ort what she might we easily and certainly become—it is fell-to seppose these essentials will be supplied to us from abroad, and we may as well inconcile our relyes to that fact

But we do not believe our citizens to Le destitute of these all-bapertant qualities, these halispensable requisites to material growth and progress- these conditions upon which the presperors future of our island tity rost largely and mainly depend There is a commercial and industrial sucruss in store for us, as a community for he youd maything we have as yet attained - it is plainly and conveniently within our reachand we shall sin against 1 strength and opportunity, if we fail to secure it. But we thall not fail. We shall succeed. We shall arouse from our lethergy, ere long, and the Isad shall hoar from us.

As an incident in the work of progress and removation, it would be well if we could make Newrour the America landing. place of the mammoth Rulish steamer "Levisthan," or whatever they have now decided to call her-for it seems the proprictors, who had once changed her mane before Isunching, have again changed it since that event. It would be more than well-it would be famous. As the business of that great vessel, if at all successful, most be drawn largely from New York and Boston, it seems a gross miscalculation to I and her away down at Portland, so far som all the great cities of the continent .--We cannot perceive the reasons for such an miningement, and we doubt if the directors of the Leviathan company sufficiently considered the matter before coming to a deeision.

But why does not the great steamer go directly to New York? The reason we have seen stated is, that the cutrance to N. Y. harbor is not adequate-that the depth of water at the Narrows, (some 18 or 20 feet at low tide) is too small for her draft. And the same is said or surmised as to Boston-how trait, we do not know,

At all events, Newbott harbor is taken quate-hig enough and deep enough for all the Levinthans alloat. And it would be so convenient for the New York and Hoston Lusiness-as well as Providence. Citizens of NEW pour !-will you have the Leviathan land here, instead of elsewhere? If you would, no time is to be lest.

One of these two things we must chanse, and upon that choice depends in a our city as a summer resort.

We believe that as r general thing the hady of our traders will agree with us in the spirit of the above remarks-that they are honest both in principle and practice, and disposed to frown upon, where apparent, any and all attempts at extortion by their neighbors.

Having thus, as we think, demonstrated that horesty, in the long run, is the best policy, as well as a virtue in itself, we leave the subject, not to be resumed again, unless some glaring exhibition of the oppo-

CORRESPONDENCE.

NEW YORK, Aug. 2, 1858. Mr. Entror: -The flour and provision markets, stimulated by the comparatively cool weather of the past week, evinced an increased activity on Saturday. The dry goods jobbling, in domestic products, is moderate enough-some little huying by southern and western traders, but, on a cautions and restricted scale, partly because of a diminished home demand, and partly because eash and shorter credits than heretofore are the order of the day in New York.

In foreign fabries, there is little doing beyoul a light husiness in dry goods-the crinolina expansion baving, it seems, about reached its maximum. Queen Victoria having discountenanced it at her daughter's wedding, the hoop business is said to here greatly declined in England. And I don't know as it is much to be recretted, considering the ridiculous breadth to which some folks carry it. Yet I still believe in a large latitude in the right of dress.

The hanging of Kelly, the wife murderer ook place on Friday P. M., in the fail yard at Brooklyn. The monster seemed to leave the world with little regret, though the Cathelic clergy did succeed in rousing his sensibilities a little during the last few days of his life. Some 60 policemen and 80 of the military were present at the exeention. The culturit died hand, the knot being imperfectly fixed. He leaves several orphan children.

All the ward schools of this city closed their Summer terms last week, and will now have a month's racation. This is greatly needed by the children, so long imprisoned during the hot weather; and if the vacation had been a month earlier and extended to September, it would have been still better. It is the laurdest kind of work to get children to fearn, while they are rousted with Summer heat, drowsy, and flybitten,

The Barlem Railroad Co., which has hitherto employed steam-nower as for down as 32th street, was lately directed by the Common Conneil to discontinue the use of such power helow 42d street, and to rundits small city cars by horse power up to post point. To this requisition the Countries objected, and appeals to Judge Hillon, of the Common Pleas, for an injunction to stay the authorities in their proceedings .--But Judge II, has decided for the city government. So the Harlem Co, must back up its locomotives to 42d street, and run its city passenger cars, by horses, through the long turnel, nearly half a mile under Murray Hill. It seems as if this measure would be about as great an affliction to the public as it evidently is to the Harlem Co. But I suppose somebody continues to get an ave ground, or a gradge satisfied in the operation,

An effort has been making in the Comnon Council, to compel the swill milk pedlers to have the words " Swill Milk" painted conspicuously on their wagons, so that the public may not be misled or deceived as to the real nature of the article they venil-more especially as certain dignified Aldermen insist anou it that the swill product is quite as good if not a little better than the milk of grass-bil cows! But, thus far, the effort has not succeeded. It ought to succeed, though, -but the swill men are well aware that such a rule, if enforced, would kill their trade in less than no time,

PROP. O. J. WOOD—Dear Sir: Some
time last symmer we were induced to use some
of your H ir Restorative, and its effects were
so would stell, we feel it our duty to you and
the afficiest, to report it.
One but some head for some time had been
perfectly everted with sores, and some called
its cab hered. The hair almost entirely came
off in consequence, when a friend, seeing his
sufficient advised us to use your Restorative,
we find so with little hope of success, but,
our surprise, and that of all our friends, a
very few applecations removed the disease, the
tirely, and a new and luxuriant crop of hair
some started out, and we can now say that
our loy has as beathy a scalp, and as have
thaid a crop of hair as any other child. We
can therefore, and do herely recommend your
lie-therative, as a perfect remedy for all discases of the scalp and hair.
We are, yours respectfully.
